

Mockup Review Meeting with Nick R.

Images

- Images look good
- Nice image contrast
- Try to make the images cohesive in quality and texture

Text

- Work on text scale and find an interesting display typeface for headers
- Think about how text integrates with the page / images
- Look at scale shifts in text
- Load in some webfonts

Layout

- Investigate bottom scrolling
- **New Idea:** Add a reference bar on the side to jump you to different parts of the page and navigation.
- Try adding a timeline to the background to make the page look continuous.
